VERIZON'S 2013 RESEARCH ON DATA BREACHES, ESPECIALLY AIMED AT RETAILERS

“Retailers have a few choices against these attackers. They can increase staffing levels and develop leading-edge capabilities to detect and stop attackers using (comprehensive monitoring and incident response)”...

The Saturn Partners, Inc. has been on the leading edge of providing data security, providing cyber security testing, and disaster recovery/ data recovery services to clients the world over since 2001. Our hands-on, customized approach to detecting, analyzing and quarantining threats to protect client information and financial assets has been documented over and over again in cyber security cases in several industries since the dawn of online shopping age.

Whether you are a small business dependent on credit card purchases or a large retailer with millions of customers and lists to protect, you owe it to yourself and your CUSTOMERS to contact us at The Saturn Partners, Inc. so that we may discuss your individual concerns, environment, and risks.

By the time the attackers may have made The Wall Street Journal or the New York Times with a new form of malware aimed at you, it may be TOO late for your business!
